ProForce Law Enforcement Appointed Exclusive Rights for TASER Sales in TEXAS.

**Immediate Release
June 2018**

PRESCOTT, ARIZONA – ProForce Law Enforcement is pleased to announce that it has entered into an exclusive distribution agreement with AXON for law enforcement sales of their Less-Lethal equipment in the state of Texas. AXON formally known as TASER International, manufactures advanced electronic control devices and accessories for use in the law enforcement, military, private security and personal defense markets.

AXON has become the unquestioned market leader in Less-Lethal devices for law enforcement use. In the past 20 years, the studies and reviews of actual field uses by law enforcement agencies as well as reviews by governmental agencies have revealed compelling statistics indicating significant drops in injuries to officers and suspects at agencies that deploy TASER ECDs. As a result, more and more law enforcement professionals and departments are using them as a required duty sidearm.

“We are excited and pleased to be able to now offer this great line of Less-lethal products to the law enforcement communities of Texas.” Stated Dan Rooney, Senior Vice President of

ProForce. “AXON’s Less-Lethal lineup of products is an integral part of our extensive selection of law enforcement firearms and duty gear,” he added. “We offer many AXON products including the popular TASER X26P, TASER X2 and accessory items such as holsters, battery systems, cartridges and more.”
